EXPERIENCE

Freelance Programming

2019 - Present

Remote

Managed, developed, and maintained upwards of 4 projects involving 4 other team members. These projects consisted of AIO utility system tools, community management tools, and database dashboards for our users. Within this position we maintained a community of 2500+ users, yet an extra 5000+ utilized our services in various other communities.

Key Accomplishments:

- Managed to secure a firm and respectful position in multiple communities.
- Led team to achieve multiple projects and increased community engagement for various content creators within 6 months

IT Specialist

2016 - 2019

Dakota High School | Macomb County, MI

Responsible for completing certifications, and helping diagnose network issues working alongside the dedicated IT team dedicated to our school.

Key Responsibilities:

- Successfully solved problems in a team environment
- Helped diagnose and solve student and organization IT issues

PERSONAL PROJECTS

Discord Bot

2020-Present

Allowed for various servers with large communities to gain interaction through minigames and community events. The bot automated various games such as slots, duel (Fighting game), jackpot. The bot has upwards of 3500+ users which it successfully tracks and updates each with different levels and currency.

Key Accomplishments:

- Developed a strong sense of MySQL and how code should successfully interact with a database for peak performance
- Utilized Git extensively for project management

GPU Tracker

2020-2020

Created an open-source software for users to track the latest releases of new NVIDIA and AMD graphics cards to help real customers achieve purchasing a new 30 series graphics card.

Key Accomplishments:

- Sensible purpose in the program with a clear goal
- Great introduction to tools such as selenium
